**All three for \$1.00**

MANY a farmer will tell you he never knew how much bigger crops he could raise until FARM JOURNAL put it into his head to work more with his brains.

This great little paper is always nudging farmers up to make more money. Pleasant but persistent, it works at you year after year to raise larger crops, fatter horses and cows, heavier hogs, bigger apples and potatoes, and shows you just HOW to do it.

FARM JOURNAL ("cream, not skim-milk") is 34 years old, and has over 750,000 subscribers, more than any other farm paper published. Its four million readers (known as "Old Folks") are the most intelligent and prosperous country people in the world, and are always saying FARM JOURNAL helped to make them so. It is clean, brief, "balled down," full of practical wisdom, fun, and sunshine. It believes in order, thrift, kindness, comfort, and happiness, and it has old Peter Tumble-down always ready to show how NOT to run a farm.

"Old Folks" have comfortable homes, modern buildings and machinery, tight roofs and fences, gates that swing like sonal horses, well-dressed and happy wives and children, and money in bank. Their potatoes are the largest, their milk tests the highest, their hogs weigh most, their fruit brings the best prices. Live farmers everywhere find this out, and they want the FARM JOURNAL.

Subscribe now, and get with the paper any of these famous

## Money-making Secrets.

These great illustrated booklets are all stories of success in farming, and they tell you the methods that won it.

**Poultry Secrets** is a unique collection of the secret methods and discoveries of successful poultrymen. It gives Felt's famous mating chart, expressed for years, the Currier method of securing 50 per cent. more pullets, a cocker's, Hoyer's method of insuring fertility, with priceless secrets of raising, feeding and breeding, how to produce winter eggs, and many others of great value for poultry growers. Now published.

**Horse Secrets** exposes the methods of "bushopping," "blinding," "caneing and gasoline dousing, and other methods of making a horse appear to be well as an unsound horse. It also gives many valuable details, training, breeding and veterinary secrets.

**Corn Secrets** is the great NEW hand-book of Prof. Holden, the "Corn King." It tells how to get ten to twenty bushels more per acre of corn that is rich in protein and other valuable feeding elements. It contains 100 pictures showing every process.

**THE MILLION EGGS-FAIRM** tells how J. M. Foster, in the New Jersey poultry, made over \$10,000 a year from eggs. It tells how he raised chickens, read about the "Kaneconia Unit," and learn how Foster FEELS his hens.

**THE "BUTTER BOOK"** tells of seven cows that produced half a ton of butter each per year (the average). An eye-opener for dairymen. Get it, weed out your poor cows, and turn your good ones into record-breakers.

**GARDEN GOLD** shows how to make your back-yard supply you with fresh vegetables and fruit, how to cut down your grocery bills, and get cash for your surplus produce. It tells when and how to plant, cultivate, harvest and market every kind.

**DUCK DOLLARS** tells of the great Webb's duck-farm near Boston. Every year they sell over 10,000 ducklings at a net profit of 50 cents each. Tell why ducks pay less than chickens, and just HOW they do everything.

## SOUTHERN RAILWAY WORKING TO HELP FARMERS OF SOUTH

HAS INAUGURATED IMPORTANT  
MOVEMENTS FOR BETTER-  
MENT OF AGRICULTURAL  
AND INDUSTRIAL CON-  
DITIONS IN  
THE SOUTH-  
EAST.

### A LEADER IN DEVELOPMENT

How the Southern Railway System is Working to Aid the People Already in the Southeast and to Attract Additional and Desirable Settlers to This Section.

Much attention has been attracted, in recent years, to the work which many of the great railroad systems and a number of the lesser companies have been doing in the line of practical development work for the territories they reach. There is little question that this work has had an immense influence in the advance made in nearly all portions of the country and in the general prosperity and growth of the nation. People recognize this fact, and are so impressed by it that many communities and districts have come to look to the great transportation companies which serve them for leadership in nearly all efforts to develop their resources. The business of the railroad company is to handle traffic. Whatever work is undertaken outside of that should properly have a direct relation to the increase of the road's traffic.

It is generally known today that in well planned and effective work to increase the business of the road by adding to the population of its districts and the utilization of the resources and opportunities of the various communities it serves, the Southern Railway System is a leader, with in many lines of this work it has been a pioneer. A resident of Oregon, connected with one of the great transcontinental lines, who has been making a study of the work of the Southern in this direction, recently stated that in its development work the Southern had the best organization in the country.

### Bringing watermelons to Southern Railway Depot, Clayton, N. C.

**METHODS OF AIDING FARMERS.** A recent publication of the United States Department of Agriculture said that the manifestation of interest by the transportation companies of the country in the betterment of agriculture has recently become so pronounced and general as to attract the attention of all who are engaged in rural development; that this interest has been shown principally in the providing and running special trains for the dissemination of agricultural information among farmers, and in their appointing agricultural experts to position in the management of the roads to give attention to the development of rural communities, and to the proper handling of agricultural products shipped from distributing points on their several routes of railway.

In all these directions the Southern Railway System has been prominent. Its activity, however, are not confined to the lines of agricultural work mentioned, and in the way of industrial and of general development work the field of labor has been very broad. The activities of a railroad company in promotion and development work must be based on the special needs and opportunities of its field. Beginning with the organization of the Southern Railway Company this work has been planned with a view to the largest and best development of both the agricultural and industrial resources of the Southeastern States.

This has meant a study of the agricultural, mineral, forest and manufacturing resources and opportunities, the advertising of them, participation in the work of educating our people regarding the value of their farm lands and natural resources and of the best utilization of them, and of efforts to secure the fullest co-operation of all interests in the sections advanced.

**EXTENT OF THE WORK.** The Southern Railway System, through its various lines, reaches into and serves nearly all the industrial and agricultural districts of Virginia, the Carolinas, Georgia, Kentucky, Tennessee, Mississippi, Alabama, Georgia

Northern Florida and Southern Indiana and Southern Illinois. This includes a vast empire, in extent, and one in which nearly all manner of conditions, resources, needs and possibilities are found. To properly serve such a territory the development of work must embrace many different avenues of activity.

It has been carried on with the idea that to fully utilize the resources of a railroad, the needed and desired development new men and new capital from the outside must be brought in to work either independently or in connection with the men and capital of the Southeast in developing our forest and mineral wealth and in extending our manufacturing interests, that more farmers must be induced to locate on our improved and unutilized lands and that the farmers already in the Southeast must be made to more fully understand the opportunities at their command and to adopt the lines and methods of farming which will give them the best results.

Cooperation must be the keynote of all the development or educational work of a railroad company. So, to accomplish little more than the sympathetic and active co-operation of the people and the various agencies for improvement in its states and communities. All the Southern's work, therefore, has been based upon the cooperative idea, has been to assist various state and local educational institutions, commercial organizations and individuals in efforts to advance individual and general progress in the section.

The work for developing and improving the conditions along its lines is done by the Southern Railway System in many ways. Through its earnings, however favorably, though, this character of work may affect a railroad company and its stockholders it is worthwhile more, if carried on wisely, to the people and the several communities in the road's territory. The railway can profit from it only in so far as, as a result of the greater prosperity of the people.

## SOUTHERN RY. ACTIVE IN AGRICULTURAL WORK

Co-operates With State and Federal Authorities and Has its Own Horticultural, Live Stock and Dairy Agents.

Today the greatest attention is paid to the development of the agriculture of the South. This development must be largely through the efforts of the people already on the farms and resident in the states of this section. The homeseekers from the North and from

Europe will aid by their work and their practical experience, but it is through better farm education and better farming and the improvement of farm conditions that the best and widest development will result.

To the efforts of the United States and State department of Agriculture, the college of agriculture and the experiment stations, the Southern Railway is giving the best cooperation it can. Through President Pinley and through the Land and Industrial Department it is helping to circulate the bulletins and other publications of the Agricultural Departments which are of special value to the Southern farmer. A few years ago when it was decided by the United States Department of Agriculture to operate model farms in different parts of the country the Southern secured the location of many of these farms in its territory and the farms so located have been of great value in improved farm methods in many communities. To the United States farm demonstration work in the South the same co-operation has been given, and today the Southern's own agricultural work is working in co-operation with the agents of the farm demonstration bureau. A few months before his death the Land and Industrial Department arranged with the late Dr. S. A. Knapp for a series of six addresses in the South in which he discussed in the most comprehensive manner ever undertaken, the special needs and opportunities of the Southeastern farmer. These addresses brought about greatly increased interest in farm improvements and more profitable farming throughout the territory.

The company is in constant co-operation with the various state departments of agriculture, eliciting their help for the farmers of particular districts in making use of their investigations and securing their suggestions in the introduction of new crops or the development of special lines of agriculture in various communities; and, wherever possible, aiding these departments to make their work more efficient.

Special agricultural and horticultural agents are maintained by the company to assist in the work of

cultural possibilities, to do direct work with farmers in giving instructions, where desired, regarding improved methods of farming and crop diversification and working for new lines of farm development. Cooperation is given fruit growers in the packing of fruit for shipment and in marketing it.

The development of the live stock industry is given special attention. President Pinley has personally given much time to the circulation of literature calling attention to the loss to the Southeast from the cattle tick in the infected districts and to the practical work of eliminating the tick. A dairy agent, under the Land and Industrial Department, is at work to develop the dairy interests, and his work is doing much for this industry. A live stock agent, under the Freight Traffic Department, assists the farmer in his shipments. In developing markets for his stock and in other ways of advancing this industry.

The Southern Railway System is co-operating with the state agricultural authorities in running institute and other special trains. A dozen trains have been run in a single year. The work of these trains is carefully followed up.

From time to time pamphlets, leaflets and circular letters are printed for the benefit of the Southeastern farmer.

### A Great Combination Offer.

By special arrangement with the FARM JOURNAL, we are enabled to make an offer that will attract every subscriber who is interested in farming, stock or poultry-raising.

Every farmer knows the Farm Journal. Three-quarters of a million of the most progressive and prosperous farmers take it now, which is more than subscribe to any other farm paper on earth.

It's not so big as some papers, mainly because it knows when to stop talking. Its motto is "Cream, not skim-milk." It doesn't print long-winded essays and articles that put you to sleep. It is often called "the bulldozer paper." It gives you more for the money than any other farm paper that we know of, and puts it into fewer words. It is always telling you about the things that need to be done now, so that a farmer who reads regularly is not often behindhand with his work.

Everybody who once gets the habit of reading the Farm Journal wants to keep right on, so the publishers don't let a one-year subscription any more, but you can get it every year for \$1.00, and ten years for only \$10.

We have made arrangements by which we can offer to all subscribers the BALTIMORE SEMI-WEEKLY AMERICAN for one year, and the FARM JOURNAL for FIVE years, BOTH for only \$12.50.

The Farm Journal people also publish a remarkable series of booklets, "Poultry Secrets," "Horse Secrets," "Corn Secrets," and others, that have made a great sensation. They won't sell these booklets separately, but only with subscriptions to the Farm Journal.

We can get any one of these booklets, with the Farm Journal, for four years, and the BALTIMORE SEMI-WEEKLY AMERICAN for one year, all THREE for \$12.50. If you send your order to us now with the money.

Do you know Peter Tumble-down? He is the old farmer that who is always going to mend his shirt this coming Saturday, and get a blanket for his horse next week.

When you get a chance like the offer above, don't be a Tumble-down. Act.

### Our Great Combination Offer.

The Farm Journal and a check full of gumption, and has the largest circulation of any farm paper in the world. It is cut to fit the farmers of every part of the United States, not of one section only. We offer for a short time the Jeffersonian for one year and the Farm Journal for FIVE years, BOTH for only \$12.50 which is little more than the regular price of one. This we can offer at this price only until January 31, 1912.

### Saves Two Lives.

"Neither my sister nor myself might be living to-day if it had not been for Dr. King's New Discovery," writes A. D. McDonald of Fayetteville, N. C. R. P. No. 8, "for both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best ever used or heard of." For sore lungs, coughs, colds, hemorrhages, laryngitis, asthma, hay fever, croup, whooping cough, all bronchial troubles, it's supreme. Trial bottle free. 50c and \$1.00. Guaranteed by all druggists.

### Old Soldier Tortured.

"For years I suffered unspeakable torture from indigestion, constipation and liver trouble," wrote A. K. Smith a war veteran at Erie, Pa., "but Dr. King's New Life Pills fixed me all right. They're simply great." Try them for any stomach, liver or kidney trouble. Only 25c at all druggists.

### Feeding Dairy Cows.

This is a time when the dairyman with a silo is not worrying about what to feed or because feed is high. The present prices of hay, corn and mill feed are causing many dairymen to resolve not to pass another winter without a silo.

The use of silage means the keeping of more cows on the farm. It cuts out the hay bill in half and produces larger yields of milk. In feeding, silage and hay are generally fed as much as the cattle will consume.

Practically, if possible, alfalfa, cowpea or clover hay. In case of shortage of these, use whatever is obtainable, but whatever is lacking in the hay will have to be supplied in the more expensive grain feeds.

Silage distillers are getting good success with corn silage, cottonseed meal and cowpea hay, using no mill feed, and where grain seems to be needed, supplying corn. With silage and cowpea and clover hay, feed grain in proportion of 1 pound of grain to 31 or 4 pounds of milk produced. Without silage and with timothy or corn fodder (roughage) feed 1 pound of grain mixture to 21 or three pounds of milk.

Brain and absorbent really too high to be considered and ready mixed patent feeds are still higher.

Many have learned from experience that "ready made" feeds do not pay. Corn, cottonseed meal and sometimes little bran or oil meal are used to mix with mill dust and weed seeds for filler. Some are honestly made but all "ready made" feeds are made at a profit of five to ten dollars per ton, which can be saved by mixing at home and even better results obtained. Nothing can be said in favor of condimental feeds or conditioners.

Many mixed feeds selling from \$30 to \$35 per ton have from 10 to 20 per cent. protein, when cottonseed meal, containing 35 to 41 per cent. protein, can be obtained for less than \$30 per ton. Dried distiller's grains containing about 21 per cent. digestible protein is equal to a ton of bran, there is little need of expensive concentrates with alfalfa.

The wisest dairymen who make the most money will grow silage and corn and mix in protein and hay protein only in the shape of cottonseed meal, oil meal and gluten feed. A common fault in feeding is the use of too much grain and feeding all cows alike, regardless of production. Different kind or combinations of feeds do not affect the butterfat content of milk.

Questions regarding dairy cow feeding will be gladly answered. Mention the prices of feed, hay or corn for cure.

## THE JEFFERSONIAN.

JEFFERSONTOWN, KY.

THURSDAY, JANUARY 4, 1912.

## TROOP

Of Boy Scouts Will be Organized in Jeffersonton Tomorrow—Parents and Boys Invited.

The Boy Scout troop which is to be organized tomorrow (Friday) evening at Bruce Hall will be affiliated with the National body, which controls the play-hours of nearly a million boys in the United States, and which is endorsed now by the clergy, labor leaders, physicians, teachers, and all others interested in the training of boys.

This movement in the past three years has spread from England to America, France, Italy, Argentine Republic, Germany, Russia and Sweden, and in the course of a few years will be world wide.

The Boy Scout movement adapts the natural energies of the growing boy and conducts them into channels of right development. While no especial religious features are attached, it is expected that churches which adopt it as a means of reaching boys will incorporate religious instructions in the regular routine of the Scouts' work.

The outdoor feature of the movement means much to the boys of the country from a health standpoint, camping, hiking and athletics are part of the Scouts' program.

The Scout is governed by laws, some of which follow:

- The law of Usefulness.
- The law of Honor.
- The law of Cleanliness.
- The law of Reverence.
- The law of Courtesy.
- The law of Obedience.

The primary object of the Scout movement is the proper disposition of the boys' leisure. The Scout work provides amusement of a character building nature. The Scout movement co-operates with the parent and teacher in the mental and moral training of the boy. Parents are requested to bring their boys out tomorrow night and hear Mr. McDowell upon this important matter.

## TO-DAY

Is the Only Time That God Gives Us, Says A. B. C.

Receives Christmas Present That is a Puzzle—The "Smart Girl"—A Good News Letter.

St. Matthews, Jan. 1.—A New Year has come, what will bring us of joy or sorrow? A merciful Providence has made it impossible to gain any information in regard to the future, that we might realize the importance of each day. "Every day is a fresh beginning; every moment is the world made new." Today is really all that is ours; yesterday is gone, and tomorrow is beyond us. No one ever failed who lived only one day at a time. It is when we combine yesterday's trials and tomorrow's probable anxieties with today's burdens which crushes us completely. With the promise of "daily strength for daily needs" let us enter this year with more courage and faith, which will bring greater achievements than in times past.

## Glad Christmas Time.

Christmas joys and presents and entertainments were so numerous in this rural route I cannot go into detail in describing each one separately. Santa Claus, in all his glory, arrived on schedule time, with his pack of toys, candles and books for the little folks, asking searching and embarrassing questions as to their conduct during the year. There were many non-committal replies, but firm promises for better behavior in the future. Even A. B. C. received several lovely and unexpected presents. Among them a fashionable bag, over which she is puzzled about when, where and how she is to use it, having a long strap-like ribbon attached. I have hung it in front like an apron, behind as a peddler's pack and on one side like the army canteen. Will The Jeffersonian (who knows everything) set me right? It's beautiful and I wish to do credit to the donor. [You've got us this time.—Ed.]

## Signs Are Right.

There are some very hopeful signs manifested in the "straydog or stolen"

case, which I hope to explain more fully in my next. It is, indeed, interesting, and there will be a time of great rejoicing when a reconciliation takes place.

## Enjoyable Occasion.

Our friends, Mr. and Mrs. J. B. Kyrer, will leave for Florida Wednesday, January 3rd, taking a two months' pleasure trip. On last Thursday evening they gave to their friends a regular "love feast," which was enjoyed to the utmost by all present; with music, amateur, professional and mechanical; a bountiful supper, which beguiled me into such indiscretion that I am still paying tribute, and games that interested everybody. Our "Smart girl" (now smartest girl) took the prizes in both contests, having more nerve to carry a row of peanuts on a knife blade to the destination. Others tried, but the peanuts rolled off like they were possessed. Wish you could have seen her whistle Yankee Doodle with a mouthful of crackers. While the other contestants were choking for breath, she spouted music and crackers over the assembly. Don't any of you enter into a contest or game with her. She will beat you in anything you undertake, having the name and the game. She bore off her trophies in great style, enough dishes and ornaments to start house-keeping. But I shall make no suggestions, as we don't want to lose her. As I viewed the debris of crackers, peanuts and candy on the carpet, we exhorted her to take "no thought for the morrow" if she would keep her mind A. B. C.

and Otto Perkins composed a party to see "Mutt and Jeff" last Wednesday evening.

Mr. and Mrs. R. P. Menton entertained a number of friends New Year's eve.

Claud Hunsinger is on the sick list.

The entertainment given at Hikes' school house on Friday evening by the Young Ladies Organized class was a decided success. Several members of the Sunday school assisted the young ladies. Mrs. John Diemer, assistant Superintendent deserves much credit for her good work.

Mr. and Mrs. Charles Hart delightedly entertained at a dinner party on New Year's eve in honor of their daughters. Those who enjoyed the evening were Misses Dorothy Skiles, Elizabeth Skiles, Barbara Hardimer, Lillian Hart, Sadie Skiles and Virginia Hart, Messrs. Orville Stivers, John Lannert, Otto Perkins and Vernon Thompson.

Miss Marguerite McCullough entertained at a dinner party Tuesday.

The house was beautifully decorated in holly and mistletoe, and the guests were delightfully entertained with music and recitations. Those who enjoyed the day were: Misses Florence Butler, Sarah Mills, Katie Simcoe, Ruth Rommell, Adelaide Stivers, Margaret Williams, Virginia McCullough and Sarah Barnes, Messrs. Wm. Schneider, Everett Mills, Fielden Frederick, Perry Williams, Louis Bauer, Alph Rommell, Wendell Smith, William Hoe, Edward Whittier, Wm. Gates and Bro. Cheek, Mr. and Mrs. James McCullough.

## Buechel Club Entertainers.

The members of Buechel Commercial Club gave a "swell" banquet at their club rooms in the bank building at Buechel last evening. About 150 guests were present, and a splendid dinner, consisting of turkey, cranberries, oysters, celery and many other things, was served in a "graceful" manner. Informal greetings, words of cheer, etc., were expressed, and all present were of the opinion that the Buechel Commercial Club is the liveliest thing in Jefferson county. We go to press too early to give the occasion the write-up that it deserves.

Widely people use Dr. Miles' Kidney Tablets because they are mild.

## NEW YEAR

Has Arrived and All Are Getting Ready to Go Back to Work.

School Children Are Given Two Delightful Days—Marriages, Births and Deaths.  
Other News From Seatonville.

Seatonville, Jan. 1.—The New Year 1912 is upon us and this is a clear, cool, frosty morning, and Mr. and Mrs. Geo. Mills and family are glad to see it. We can appreciate the sunshine after having so much rain and gloomy weather last week. Christmas, with its joys and sorrows over, and everyone is making arrangements to get back to work, quite a lot of visiting was done, but no more than usual on Christmas holidays.

### Spent Happy Days.

December 24th Mr. G. Noel Jean and wife, of Danville, paid a visit to the former's mother, Mrs. J. W. Jean and Mr. Geo. Mills and family, of Fern Valley, Mr. C. P. Jean and daughter, Elaine, and Mr. M. S. Jean, of Louisville, Mr. F. C. Jean and family, Mr. K. S. Mills and family, met at the home of Mr. Frank Jean and enjoyed a most delightful day, after hearing a fine sermon from Bro. E. L. Jorgensen, on Monday, Christmas day. They, with Mr. and Mrs. Moss Stevens, Mrs. G. W. Walsh, Mrs. M. S. Jean, and G. H. Tyler, visited Mr. F. C. Jean and had another delightful day. Several Christmas presents were exchanged. All separated wishing the days could have lasted longer. Mr. Noel Jean returned to his home in Danville on Monday evening. Mrs. Jean remained until Wednesday.

### Pleasant School Days.

Miss Ethel Mills gave a little entertainment and Christmas tree for the benefit of her pupils and patrons on Friday afternoon, Dec. 22. Owing to the inclement weather all the pupils did not get out, but those who did seemed to enjoy it immensely, and the children were happy to have Santa come in and give them presents from the tree. The recitations were fine and all need special mention, but for want of time and space I cannot mention them, but will say the children did well.

While speaking of the school, I want to join our much-admired Dr. Ridge new writer in complimenting our flag raising at Seatonville's new schoolhouse. After a week of almost incessant rain, the sun came out and we had a real pretty afternoon. She said it almost convinced her it met the approval of a kind providence to have a flag raising on Sunday. I feel sure, from that remark, she doubted the propriety of having it on Sunday, and we were inclined to doubt it, too, but, willing to learn something, we went, and after listening to two good prayers from Mr. and Mrs. R. M. Pound, as she mentioned, the songs, the presentation speech by Mr. McNabb, in presenting the bible and flag and how she insisted on the teachers reading a chapter from the book of all books and repeating the Lord's prayer every morning (as her custom was), hearing the recitations and other ceremonies, all doubts of impropriety fled. Since then so many compliments of the occasion have come to us we regret the afternoon was not longer, so we could have had a talk from all the teachers who had taught in the old Seatonville schoolhouse. Those present were Mrs. Slim McMahon, Mrs. G. M. Boston, Mr. R. M. Pound and Mr. Orville Stevens. The present teacher, Miss Ethel Mills, has the honor of being a pupil of all, except Mr. Pound. Her father is a pupil of his, having come to him when he taught in the old big Primrose schoolhouse. We were glad indeed to have Mr. Pound with us on that occasion. And while there are older districts in the county than Seatonville, we have had some fine teachers and don't see why when weather gets good, we can't have a reunion of teachers and pupils and a speech from all and awaken an interest in school work as they are doing everywhere in Kentucky. All enjoyed Superintendent Stivers' talk and are going to do our best to keep him in that office, as he is certainly the right man in the right place.

### Extremely Sad Death.

Mrs. Bell Phillips (nee Ash), who a few years ago, married with her husband, Mr. Amos Phillips, to Miami, Florida, was brought back to a corpse and buried in Cave Hill Dec. 24. We knew and loved Mrs. Phillips and want to extend to her husband, the little boy, her sisters, Mrs. Joe Pank, Mrs. Everett Breatling, and two brothers, Messrs. Tom and John Ash,

our sincere sympathy. Death brings sadness wherever it comes and especially to one in the prime of life, as this loved one was, and leaving one little boy, just at an age to need a mother's love and sympathy in their little troubles. We knew it was with a heavy heart that Mr. Phillips, who is a brother of our neighbor, Mr. John Phillips, wended his way back to their desolate home with his little boy.

Last Sunday Mrs. Jones gave a fine sermon both morning and evening at Cedar Springs, which was appreciated and enjoyed. He died with Mr. Geo. Tyler.

Mr. Bailey Jones and wife, Dr. Turner and wife, Mr. Clarence Omer and wife, Mr. Lake Wheeler and family spent last Sunday with Mr. Frank King and family and today, Jan. 1st, they are spending with Mr. Bailey Jones and wife.

Mr. Clarence Omer and wife entertained on Christmas day Mr. Bailey Jones and wife, Mr. Lake Wheeler and family, Dr. and Mrs. J. W. Turner, Mr. Worden Stout and daughters, Sallie and Aileen.

Mrs. Sallie Loving, of Louisville, is visiting her brother, Mr. K. S. Mills.

Misses Addie and Ella Leids, of Crescent Hill, are spending this beautiful New Year's day with their aunt, Mrs. J. W. Jean.

Miss Ethel Mills visited her cousin, Miss Sarah Mills, of Fern Valley, and attended the entertainment of Modern Brotherhood and enjoyed it hugely.

Mrs. John Phillips entertained last Saturday Mr. Geo. Funk and family, Dr. and Mrs. J. W. Turner, Mr. Jake Plick and wife, Mrs. Sallie Morsey, Mr. Harvey Tyler and son, Leonard, of Middletown, and Mrs. Sarah Johnson.

The stork visited the home of Messrs. Jim and Arch Timnell last week and brought a little girl to each one.

Mr. Ben Yates is entertaining today in honor of the sixty-seventh birthday of his father, Mr. Nelson Yates. We wish Mr. Yates a pleasant day and many more happy birthdays.

Mr. Ben Bruce entertained yesterday Messrs. Elmer and Willie King and families, Mr. Frank Jean and family, Mr. Crum Cook, of Watford, Mr. Jim Cook and wife, Mr. Doc McMahon and wife, Mr. Peter McMahon and daughter, Susie, and Mr. Umer Frederick and family.

Mr. Jim Cook, of Erie Creek, and Miss Ada Bishop were married Dec. 23rd. Mr. Cook has won a prize. She is the lovely daughter of our neighbor, Mr. Tom Bishop.

Miss Myrtle Johnson has been sick most all the time during the holidays, but we are glad to know she is able to be up this morning.

Mr. Force Jean and family entertained Mr. Chas. Helley and family, Mr. Guy Mills and sister, Ethel, last Saturday.

### VALLEY STATION.

Jan. 1.—Miss Abula Baker has returned to school at Bowling Green after spending the holidays with her parents, Mr. and Mrs. Charles Baker.

Mr. W. R. Camp and family were guests Sunday of Mrs. D. J. Burnett. Miss May Bell Buckner, of New Albany, Ind., is spending several days with Miss Aurelia Napier.

Mrs. John Miller's guests Sunday were Mr. and Mrs. Robert Miller, of Shively, Mr. J. H. Dodge and family, Miss Verna Phillips and Murray Swindler.

Mr. and Mrs. W. S. Mills, of Louisville, were the guests of Mrs. S. S. Moss Saturday.

Miss Lillie Burnett entertained The South Jefferson Club at Kennedy's Hall last Wednesday.

Mrs. Edgar McCallister's guests Wednesday were Mrs. Bettie Bower, Misses Clara Knadler, Eula and Johnnie B. Moremen, Guy Lena Penley and Allen Bower and Master Wade W. Moremen.

Mr. and Mrs. Glen Blakely, of Louisville, Mr. Ed Craig and family spent Christmas with Mr. S. J. Groom and family.

Misses Dorothy and Major Moremen returned Wednesday to Jackson, Tenn., after spending the holidays with their parents, Mr. and Mrs. L. P. Moremen.

The Camps had a family reunion at Mrs. W. R. Camp's during Christmas. Mrs. Edgar McCallister and children spent Sunday with Mr. W. W. Moremen and family.

Mrs. Frank Bridwell will entertain the Ladies Aid of Bethany church at her home Thursday.

Mr. and Mrs. Rely D. Alsop and little son visited Mrs. Maria Stewart during the holidays.

## These Successful Business Men Received Their Business Training at the

## Business College, INCORPORATED Louisville, Ky.

### LET ME EMPHASIZE

1. That this school has trained MOST of the successful business men of Louisville and vicinity.
2. That it is better equipped today to train YOU than it was when it trained these prominent business men.
3. That the demand for its graduates is so great that we are compelled to

#### **GUARANTEE POSITIONS**

- to secure enough students to supply the demand for BRYANT & STRATTON trained bookkeepers, stenographers, commercial teachers, court reporters, etc.
4. That BRYANT & STRATTON male graduates are so well trained that three-fourths of them cease to be employees and become proprietors and managers of businesses within five years after they leave school.
5. That the demand for BRYANT & STRATTON trained lady bookkeepers, stenographers, commercial teachers, court reporters, etc., is always in excess of the supply.
6. That we are giving

#### **A SPECIAL DISCOUNT**

right now to secure enough young men and women as students to enable us to supply the great demand for BRYANT & STRATTON trained office assistants and teachers.

*G. W. Schwartz*

**PRINCIPAL**

Is also a Bryant & Stratton Graduate. Class 1900

7. That if you want to be successful, you should attend the school that is endorsed not only by the leading business men of Louisville and vicinity, but by prominent public men like Hon. W. O. Head, Mayor of Louisville; Rev. Dr. E. L. Powell, pastor First Christian church, Louisville; Hon. William Jennings Bryan, Hon. M. H. Thatcher, Governor of the Panama Canal Zone, etc.

8. That the business men of Louisville and vicinity have called upon us for 1,000 BRYANT & STRATTON graduates in the past twelve months; therefore, to be known as a BRYANT & STRATTON graduate is a valuable asset to any young man or woman.

9. That a BRYANT & STRATTON diploma, issued by a school that has been in successful operation for forty-seven years, commands the respect and attention of business men everywhere in the civilized world.

10. That we will be glad to send you our illustrated catalogue, which gives full particulars of our school, and an elegantly bound booklet containing the great address of Hon. W. J. Bryan to our last graduating class FREE, provided you write or phone us NOW - TODAY; or better still, visit the school. Mail inquiries should be addressed to George W.
